<ul style="list-style-type: none"> - Ability to work independently - Ability to work in a team - Critical and analytical thinking - Solution orientation - Willingness to learn and work hard - Communication skills in interactive critical discourse - Ability for constructive feedback and criticism - Oral and written communication skills - Presentation skills 					
Content:					
<p>In this module, students become fictitious managers and consultants in the field of corporate sustainability management. The students work in teams under supervision to develop recommendations on current issues in sustainability management. This is based on existing knowledge of methods and instruments of sustainability management and on subsequent, in-depth and topic-specific research. For this purpose, real company challenges and case studies are analyzed and tailored solution strategies are developed, presented and discussed.</p>					
Language:					
The course is conducted in English.					
Teaching Methods:					
Lectures, group work, presentations, plenary discussions, self-study.					

Module Applicability:
M.Sc. BWL, M.Sc. VWL, M.Sc. Wirtschaftschemie, M.A. Kunstvermittlung und Kulturmanagement.
